

LAUREN CARLY SHAWBorn 1986

I am an artist currently based in San Francisco, pursuing an MFA in Studio Arts with an emphasis on sculpture from the San Francisco Art Institute. I received a BFA in sculpture from the School of Visual Arts in NYC in 2009. From 2009-2010 I participated in an international immersive contemporary studio program, Metafora, in Barcelona, Spain. My work has been exhibited internationally and at my first solo show in the fall of 2013 I highlighted the juxtaposition of traditional sculpture and drawing with the use of augmented reality technology at The Active Space, in Brooklyn, NY. I was also a 2014 Sunroom Project Space Artist at Wave Hill in the Bronx, NY with a solo show during the summer of 2014. I have participated in residency programs across the country most recently at the Vermont Studio Center and Starry Night AIR program in NM.
